

TAIPAN

Hydraulic Hose Systems

TX4000

FOR AUSTRALIA'S HARSH INDUSTRIAL AND CLIMATIC CONDITIONS

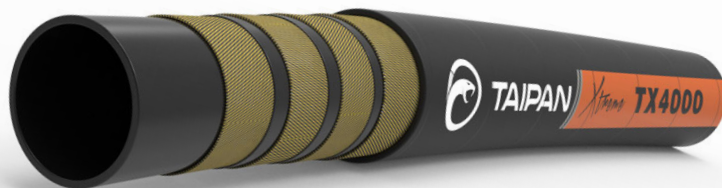

Introducing the Taipan Xtreme TX4000, a hydraulic hose that has been meticulously developed for over 20 years to offer versatility and withstand the most challenging conditions found in Australia. This premium line of hoses from Taipan is designed to deliver exceptional performance.

The TX4000 features an ultra-durable cover that exceeds

the industry standard tenfold, ensuring remarkable longevity. With its improved ozone resistance and a bend radius that outcompetes many major brands this hose is guaranteed to endure even the harshest industrial, environmental, and climatic conditions in Australia.

TX4000

This highly flexible, compact, multispiral hydraulic hose with reduced bend radius and bending force exceeds SAE100 R12 and EN856 R12.

TECHNICAL DETAILS

TUBE

Black synthetic rubber, resistant against oils. Suitable for passage of mineral and vegetable oils, water based solutions, water, air and inert gases.

PERFORMANCE

Impulse tested to 500,000 cycles at 133% of its working pressure.
[tested acc. to ISO 6803:2017]

Part Number	Size (In)	ID (mm)	OD (mm)	Working PSI	Min Burst Pressure (PSI)	Min Bend Radius (mm)	Reel Length (m)	Weight Kg/m
TX4000-06	3/8	9.5	19.7	4100	16400	65	60	0.60
TX4000-08	1/2	12.7	22.7	4100	16400	90	60	0.80
TX4000-12	3/4	19.0	30.0	4100	16400	120	60	1.10
TX4000-16	1	25.4	37.0	4100	16400	150	60	1.40

TX4000 COVER

- 10 times abrasion resistance as per ISO 6945
- Improved resistance to ozone
- Improved resistance to UV
