

# DN2 TEST **ACCESSORY HOSE**

## DN2 TEST HOSE

This braided, high-pressure test hose has a 2mm bore and is rated to 630 BAR, optimal for testing hydraulic systems. It offers very high flexibility and low internal volume, making it ideal for all diagnostic applications.

## TECHNICAL DETAILS

### CONSTRUCTION

**Inner Tube:** Polyamide  
**Reinforcement:** One layer of kevlar  
**Outer Cover:** Polyamide

### APPLICATION

Designed to handle very high pressures with minimal fluid volume for the calibration and testing of hydraulic systems.

### SPECIFICATIONS

**Temperature Range:** -40°C - 100°C.  
**Hose Tails:** DN2 Test Hose Tails
